Advanced Geo Positioning Solutions

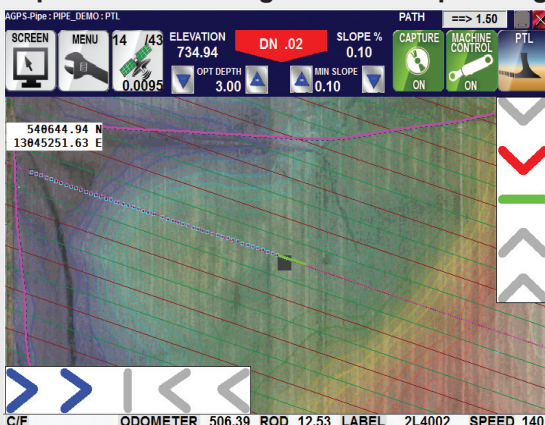

RTK-GPS Drain Tile Design & Installation Software

AGPS-Pipe Pro™ has proven technology that has been used by professional contractors to install tile with RTK-GPS for years! AGPS-Pipe Pro™ software automatically calculates tile depth & slope, then controls installation!

- ✓ Efficient Design Utilizing Vertical Curve Technology™
- ✓ Profile View
- ✓ Bird's-Eye View With Rotating Grid
- ✓ Real-Time Depth & Slope Information
- ✓ Real-Time Guidance Information
- ✓ Distance Report
- ✓ Export Drawing of Completed Field
- ✓ Tile Uphill or Downhill
- ✓ Simple Touch-Screen Interface
- ✓ Works With Any Brand RTK-GPS
- ✓ Automatically Adjusts for Rock Hit

AGPS-Pipe Pro loads any geo-referenced data and maps to be used for guidance and planning.

AGPS-VERTICAL CURVE TECHNOLOGY™

Set your preferred parameters and AGPS-Vertical Curve Technology™ (VCT™) designs a solution that uses a finite number of grade breaks through the drainage path. This saves considerable time over conventional laser systems that require a point to point drainage path. VCT™ allows a drainage path to be designed without regard to laser axis alignment.

Water Management Systems for Tiling

AGPS Water Management has a solution for each step of tile drainage. Using the same touch screen interface, the entire suite of AGPS Software is designed to increase productivity and profitability.
